LIPPER CORPORATE DEBT A-RATED FUNDS CATEGORY

Morningstar: Fund Category - Conservative Allocation. Morningstar Rating™ for funds, or "star rating," is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. A 4- or 5-star rating does not necessarily imply that a fund has achieved positive results for the period. The Morningstar information contained herein: (1) is proprietary to Morningstar; (2) may not be copied; and (3) is not warranted to be accurate, complete or timely. LSEG Lipper Fund Awards, ©2025 LSEG. All rights reserved. Used under license. The Ave Maria Bond Fund was awarded 2025 LSEG Lipper Awards for Consistent Return among 10 Corporate Debt A-Rated Funds for the three-year and five-year periods ended 11-30-24. The Fund was also awarded 2024 LSEG Lipper Fund Awards for the best A-rated corporate bond funds. The award is for the 3-year (among 12 funds), 5-year (among 12 funds) and 10-year periods (among 11 funds) ended November 30, 2023. The LSEG Lipper Fund Awards are based on the Lipper Leader for Consistent Return rating, which is an objective, quantitative, risk-adjusted performance measure calculated over 36, 60 and 120 months. Lipper Leaders fund ratings do not constitute and are not intended to constitute investment advice or an offer to sell or the solicitation of an offer to buy any security of any entity in any jurisdiction. Average Credit Quality (S&P)	A+

Investment Philosophy

The Fund invests primarily in U.S. Treasury and agency securities and investment-grade bonds of domestic corporations that do not violate core values and teachings of the Roman Catholic Church. The goal is preservation of principal with a reasonable level of income.

Moral Screens

Our moral screens eliminate companies engaged in:

ABORTION

PORNOGRAPHY

EMBRYONIC
STEM CELL RESEARCH

POLICIES UNDERMINING THE
SACRAMENT OF MARRIAGE

Buy Discipline

Adviser strongly considers the following factors:

- All securities regardless of maturity
- Issuer's credit strength
- Securities effective duration and yield

Sell Discipline

Securities are sold when:

- They no longer meet criteria for investment
- More attractive opportunities available
- Company becomes a violator of any moral screen established by the Catholic Advisory Board

¹ Fund holdings are for illustrative purposes, subject to change and should not be considered a recommendation to buy or sell securities. Current and future portfolio holdings are subject to risk.

Average duration measures a fixed income portfolio's price sensitivity to interest changes. Weighted average maturity is the weighted average time (in years) until the securities in a fixed income portfolio will mature. Average credit quality provides investors with an idea as to a fund's credit quality. It also helps to identify the overall risk with a bond portfolio. A lower weighted average credit weighting means a bond fund is more risky than one with a higher rating.

Adviser invests only in securities that meet the Fund's investment and religious requirements. Returns may be lower or higher than if decisions were based solely on investment considerations. The method of security selection may or may not be successful and the Fund may underperform or outperform the stock market as a whole. All mutual funds are subject to market risk, including possible loss of principal. The Fund's investments in small- and mid-capitalization companies could experience greater volatility than investments in large-capitalization companies. The Fund invests primarily in fixed income securities and as a result the Fund is also subject to the following risks: interest rate risk, credit risk, credit rating risk and liquidity risk. Investment performance assumes reinvestment of dividends and capital gains distributions. Performance data reflects certain fee waivers and reimbursements. Without such waivers, performance would have been lower. Bloomberg Intermediate US Gov/Credit Index is the benchmark index used for comparative purposes for this fund. The Bloomberg US Aggregate Bond Index is a broad-based benchmark that measures the investment grade, US dollar-denominated, fixed-rate taxable bond market. The index includes Treasuries, government-related and corporate securities, fixed-rate agency MBS, ABS and CMBS (agency and non-agency). Indexes do not incur fees and it is not possible to invest directly in an index.

Request a prospectus, which includes objectives, risks, fees, charges and expenses and other information that you should read and consider carefully before investing. The prospectus can be obtained by calling 1-866-283-6274 or online at www.avemariafunds.com. Distributed by Ultimus Fund Distributors, LLC.
